📍 Hyderabad

in Adithi\_Raskonda

## CAREER OBJECTIVE

Aspiring Data Science graduate with skills in Python, SQL, Power BI, and Machine Learning. Experienced in data analysis, visualization, and predictive modeling through academic projects and internships. Seeking an opportunity to leverage analytical and problem-solving skills to drive data-driven decision-making.

## EDUCATION

### MLR Institute of Technology

Bachelor of Technology (B.Tech) in Computer Science and Engineering (Data Science)

(2021 – 2025)

Hyderabad, India

- CGPA - 8.21

### Sri Chaitanya Junior College

MPC (XII - Telangana State Board of Intermediate Education)

(2019 – 2021)

Hyderabad, India

- Percentage – 91.6

### Unique High School

SSC (X – Secondary State Board of Secondary Education)

(2009 – 2019)

Hyderabad, India

- CGPA - 10.0

## SKILLS

- **Programming & Query Languages:** Python, Java, SQL, C
- **Data Analytics & ML:** Data Analytics, Exploratory Data Analysis, Power BI, Tableau, Data Visualization, XGBoost, NLP
- **Cloud & DevOps Tools:** AWS, Cloud Computing, DevOps, Docker, Kubernetes, Helm, Terraform, Ansible, Jenkins, SonarQube, Maven, CI/CD.
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, Visual Studio Code
- **Soft Skills:** Problem Solving, Leadership, Communication, Quick Learner, Adaptability, Team Collaboration

## CERTIFICATIONS

- Demonstrated proficiency in Data Analytics with Python through NPTEL certification (2024).
- Earned certification in Python Programming from the OpenEDG Python Institute (2024).
- Acquired foundational knowledge in AI through Microsoft Azure Artificial Intelligence Fundamentals certification (2023).
- Validated expertise in Business Intelligence and Analytics using Power BI through professional certification (2023).
- Achieved SQL (Advanced) certifications from HackerRank, demonstrating database management and querying skills (2025).
- Completed CCNA Enterprise Networking, Security and Automation certification from Cisco (2024).
- Gained foundational knowledge in Data Science, AI, and Machine Learning through Edyst certification (2023).
- Successfully completed Python – Introduction to Data Science and Machine Learning A-Z certification from Udemy (2023).
- Developed cloud computing fundamentals through AWS Cloud Practitioner Essentials certification (2026).
- Completed the Deloitte Data Analytics Virtual Experience Program by Deloitte (2025).

## PROJECTS

### Bank Customer Churn Prediction (Technologies: Python, Pandas, XGBoost, Scikit-learn)

Engineered a machine learning model to predict customer churn using XGBoost. Performed data preprocessing, feature engineering, and EDA to identify key churn factors.

### Fake Product Review Detection (Technologies: Python, NLP, Pandas, Scikit-learn)

Implemented an NLP-based system to detect fake product reviews using text preprocessing and classification techniques.

### Geo – Spatial Analysis using A\* Algorithm (Technologies: Python, A\* Algorithm)

Created a geospatial routing system using the A\* algorithm to compute optimal paths and enable efficient route planning.

### A Laser Light Security System (Technologies: Arduino, IoT, LDR Sensor)

Designed an IoT-based intrusion detection system using laser and LDR sensors for real-time monitoring and security alerts.

## INTERNSHIPS

### Prodigy InfoTech - Data Science Intern

Analyzed and visualized real-world datasets using Python. Performed exploratory data analysis (EDA) to derive actionable insights.

## ORGANIZATION

- Member - Squad Club, MLRIT (2021-2025)
- Member - Computer Society of India (CSI), MLRIT (2021-2025)
